Tesseract.js | Pure Javascript OCR for 100 Languages!

This library supports more than 100 languages, automatic text orientation and script detection, a simple interface for reading paragraph, word, and character bounding boxes. Tesseract.js can run either in a browser and on a server. <https://tesseract.projectnaptha.com/>

Iild Splendour of the various-vested Night!  
Mother of wildly-working visions! hail!  
watch thy gliding, while with watery light  
Thy weak eye glimmers through a fleecy vei  
nd when thou lovest thy pale orb to shroud  
Behind the gather'd blackness lost on high;  
nd when thou dardest from the wind-rent cloud  
Thy placid lightning o'er the awaken'd sky.

## OCR (Optical Character Recognition) functionality in Node.JS Application

Optical character recognition or optical character reader (OCR) is the electronic or mechanical conversion of images of typed, handwritten or printed text into machine-encoded text, whether from a scanned document, a photo of a
